

MENG Linhcheu

Frontend Developer
Graphic Designer and UX/UI Designer

ABOUT ME

Motivated Management of Information Systems student specializing in Frontend Development, Graphic and UI/UX Design. Experienced in building responsive web applications with Nuxt.js and creating engaging digital content using Figma and Adobe tools. I bridge the gap between technical code and creative design to build seamless user experiences.

EXPERIENCE

October 2025 - Present

Paragon International University

Frontend Developer Intern - Hybrid

- Developing and maintaining responsive web applications using Nuxt.js, ensuring a seamless user experience across different devices.
- Translating UI/UX designs into clean, reusable code components while optimizing application performance and loading speeds.
- Collaborating with the backend team to debug issues and implement new features for the university's digital platforms.

February 2025 - Present

Paragon International University

Student Ambassador - Media Team

- Designing high-quality visual assets and social media graphics using Adobe Photoshop and Figma, ensuring alignment with university branding.
- Filming and editing video content using CapCut to cover university events, student life, and marketing campaigns.
- Collaborating with the team to plan and execute creative content strategies that increase student engagement.

December 2024 - November 2025

Paragon International University

Table Tennis Club - President

- Led the club operations and board members, successfully driving student engagement and membership growth.
- Organized university-wide tournaments and practice sessions, managing all logistics and promotion.

May 2024 - April 2025

Union of Youth Federation of Cambodia

MoEYS E-Learning App - Volunteer

- Managed administrative data entry to ensure the accuracy and integrity of user records.
- Created detailed performance reports using Excel and Canva, and provided logistical support for workshops.
